AZZIKRA RAMADHANTI AKSAN

085803919363 | azzikraaksan@gmail.com | https://www.linkedin.com/in/azzikraaksan | https://bit.ly/portofolio-zikra

Full Stack Developer with 1+ year of experience in web application development using React, TypeScript, Next.js, Laravel, and Go. Developed 10+ full-stack features for AlurKerja, a BPMN 2.0-based business process automation platform, and handled 100+ production support tickets. Experienced in maintaining code quality through unit testing and SonarQube. Bachelor's degree in Information Systems with a GPA of 3.96/4.00.

Work Experiences

PT Javan Cipta Solusi - **Yogyakarta** Jan 2026 - Present

Freelance Full Stack Developer

- Developed 10+ full stack features for AlurKerja, covering frontend interfaces and API development.
- Built the Schema Builder end to end, enabling each workspace to independently manage database tables and custom columns, with up to 100 columns per table.
- Implemented Role Based Access Control (RBAC) to manage access permissions across 3 user roles.
- Handled 100+ production support tickets through issue analysis, troubleshooting, and bug fixes for AlurKerja.
- Maintained code quality through unit testing with Vitest and Go test, as well as code quality analysis using SonarQube.

PT Javan Cipta Solusi - **Yogyakarta** Aug 2025 - Dec 2025

Full Stack Developer Intern

- Migrated 20+ interface pages from Laravel to React to improve responsiveness and user experience.
- Developed 10+ Company Profile frontend pages using React and TypeScript, covering organizational structure management, job descriptions, reward and disciplinary rules, and SOPs.
- Developed custom React forms based on Micro Frontend (MFE) architecture for AlurKerja in collaboration with the OSS BKPM business team, reducing the estimated form configuration time for the business team by 75%.
- Fixed 20+ bugs and addressed SonarQube issues to improve application stability and code maintainability.

Fitinline - **Yogyakarta** Jun 2025 - Aug 2025

Full Stack Developer Intern

- Implemented authentication and authorization for 4 user roles using JWT, middleware, and email OTP to secure access and account recovery.
- Designed database schemas and developed 20+ REST API endpoints using Laravel for managing users, job vacancies, internship applications, and training programs.
- Developed analytical dashboards using Next.js for 5 user roles, covering registration statistics, reports, and account verification statuses.
- Developed 6 full stack features for Mavoka during the development stage, including registration, login, job listings, companies, training institutions, and schools.
- Removed 2,000+ lines of unused code before deployment to simplify and clean up the codebase.

Education Level

Universitas Jenderal Achmad Yani Yogyakarta - **Yogyakarta** Sep 2022 - Oct 2026

Bachelor of Information Systems, 3.96/4.00

- Published 3 scientific articles in national journals in the field of Information Systems, covering machine learning, data analysis, and business process improvement.
- Served as the first author of a research article on early anemia detection using Naïve Bayes optimized with Particle Swarm Optimization (PSO), improving model accuracy from 92.17% to 95.71%.
- Contributed as a co-author to 2 research articles on mini soccer field rental analysis and business process optimization.

Organisational Experience

BEM FTTI Universitas Jenderal Achmad Yani Yogyakarta - **Yogyakarta** Jan 2024 - Dec 2024

General Secretary

- Managed administrative tasks, including correspondence, event proposals, and accountability reports for 5 BEM divisions.
- Coordinated administrative requirements for 8 committees to support the smooth execution of organizational activities.
- Managed the organization's digital archives through Google Drive by organizing proposals, correspondence, and accountability reports to support the administration of 10 annual work programs.

BEM FTTI Universitas Jenderal Achmad Yani Yogyakarta - Yogyakarta Jan 2023 - Dec 2023
